- NIMA's Role in ECDIS-N NAVCERT
  - DNC Test Data Set on CD-ROM
  - What's been tested for DNC Direct Read (DR)?
  - "Direct Read" Validation Process
  - Near & Long Term Goals
  - NIMA ECDIS-N Implementation Team (NEIT)
  - Summary & Questions

# NIMA's Role in ECDIS-N NAVCERT

- **ECDIS-Navy Policy - 17 March 1998**

- NIMA was a partner in drafting the ECDIS-N policy
- Mandates use of NIMA's VPF digital data to support ECDIS-N

- **OPNAV Instruction 9420.2 - 15 February 2001**

- Implements NAVCERT process for ECDIS-N -- Ref: 1998 ECDIS-N policy
- Aids in the transition from paper chart navigation to an electronic chart environment
- Assigns responsibilities to NIMA & Navy for ECDIS-N certification process
- **Paragraph 4. Action a. (1) and (2):**

(1) Land-based testing on candidate ECDIS-N shall utilize NIMA DTDS to verify that system(s) properly read approved VPF electronic charts... and display using GeoSym **(per Appendix 7)**

(2) VPF Database Update shall be utilized by ECDIS-N

# DNC Test Data Set (DTDS) on CD-ROM

- Developed by NIMA's Maritime Safety Information Center (MSIC)
- DTDS on CD- ROM (v1.1) - June 2001

- Developed in accordance to OPNAV Instruction 9420.2 (Appendix 7)
- Purpose: Test and validate DNC "Direct Read" of ECDIS-N

Assists Navy in satisfying the NAVCERT requirements for testing the accuracy and performance of ECDIS-N **charting engines**

## **What's included with the CD- ROM?**

- (1) VPF sample data sets (**good** & **corrupt**), VDU patch files, complete feature and attribute data supported by the DNC specification
- (2) ECDIS-N documentation to support test and certification process
- (3) DTDS Instruction Manual: test procedures/requirements traceability

- Cover letter included with each CD-ROM

# DTDS on CD-ROM

## Test Data Library Sets

|                    |                |
|--------------------|----------------|
| H1708280 (Norfolk) | A1708280       |
| H1799999 (Symbols) | A1708281       |
| H1799990 (Symbols) | GEN17A         |
| A1707640           | COA17A/TOD017X |

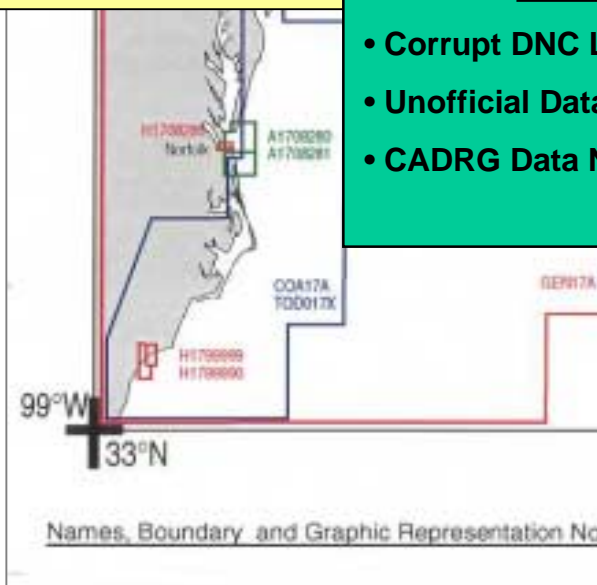

VDU Patch Files, Instructions & Software

## Sample Data Sets

- Corrupt DNC Library
- Unofficial Data
- CADRG Data Norfolk Area - JOG-A 1:250K

## Documents & Software

- DNC Specifications
- DTDS Instruction Manual & related docs
- GeoSym4 Spec, Software & Symbology
- TOD Spec 0,1,2,4
- VDU CONOPS
- VPF Standard and Perf Spec
- Acrobat Read Software

**LIMITED DISTRIBUTION**  
Distribution authorized to DoD, IAW 10 U.S.C. §§130 & 455. Release authorized to U.S. DoD contractors IAW 48 C.F.R. §252.245-7000. Refer other requests to NIMA, ATTN: Release Officer, Stop P-25. Destroy as "For Official Use Only." Removal of this caveat is prohibited.

NOT TO BE USED FOR NAVIGATION,  
DNC Test Data Set used for ECDIS-N Testing purposes only.

| OSL's ECPINS              | 17-Jul           | Yes           | Yes          | 3                | No         |                    | 28 Aug Mtg    | Fall 01        |
| CADRT                     | No               |               |              |                  |            |                    |               |                |
| Others! (TBD by N096)     | ?                |               |              |                  |            |                    |               |                |

**Note:** Next DTDS CD-ROM will contain TOD 1,2,4 (MATT TBD)

No ECDIS-N charting engine has received full NIMA DR Validation Endorsement!

\* First ECDIS-N officially tested per OPNAV Instruction 9420.2.

## “Direct Read” Validation Process

### *How is the DNC “Direct Read” test performed?*

- Two NEIT members do test and analysis @ agreed site
- Two ECDIS-N systems engineers assist
- Prefer to test 2 platforms simultaneously
- 2 to 3 days required
- Discrepancies are annotated and logged for each failed test (Appendix 7 of OPNAV Inst 9420.2/Instruction Manual)
- Accuracy test (bearings & positional accuracy's)
- Symbology test based on GeoSym 4
- Functional/Operational scenarios

# Near & Long Term Goals

## Short-Term:

- Complete DNC “DR” Test for primary ECDIS-N *Charting Engines*
  - COMDAC INS (B3B4) & NAVSSI (SOLARIS) Lite for 2 BATGRU in FY02
  - Litton VMS
- Publish final version of DTDS on CD-ROM with TODs 1, 2, 4 data
- Endorse the Direct Read requirement of ECDIS-N via formal letter

**ISSUE:** *Navy lacks official guidance for ECDIS-N TOD feature display requirement when used with DNC for submerged navigation (Base/Standard)*

## Long-Term:

- Upon completion of full “DR” validation of VMS and COMDAC INS, hand off the DNC “DR” testing to SPAWARSYSCEN - Little Creek
- Advise N096 & SPAWARSYSCEN - Little Creek

# NIMA ECDIS-N Implementation Team (NEIT)

## Maritime Safety Information Center (MSIC)

### *Testing and DTDS development:*

James Goodson (Testing Lead)  
Terry Peasland  
Dan Deguzman  
(301-227-5115)

## Navy Customer Support Division (DFN)

### *Coordination & Scheduling:*

Walter J. Kozak  
(703-264-3002)

# Summary

- Goal: VALIDATE USN primary Programs of Record Chart Engines by FY02
- NIMA has assisted the Navy in drafting the ECDIS-N policy & OPNAV Inst 9420.2
- Appendix 7 of OPNAV Inst 9420.2 stipulates NIMA tests using DTDS
- DTDS V1.1 CD-ROM made available to ECDIS-N developers
- Initial test of COMDAC INS completed
  - VMS, OSL ECPINS, and Klein (Raytheon) on deck
- DR Test requires approximately 2 to 3 days @ developers site
- Relinquish NIMA test role to SPAWARSYSCEN - LC

# Questions?
